DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Objections

2. The objection of claims 4-8 and 12-31 under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim, is withdrawn in response to Applicant's amendment to the claims.

Claim Rejections - 35 USC § 103

3. The rejection of claims 1-3 and 9-11 under 35 U.S.C. 103(a) as being unpatentable over De Clerq et al. (US Patent NO. 5607922) and Alexander et al. (US Patent NO. 5,659,023), in view of Daluge et al. (WO 9521161 A1), is withdrawn in response to Applicant's arguments.

Claim Rejections - 35 USC § 112

- 4. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 5. Claims 1-20, and 24-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. (New matter).

Art Unit: 1633

The instant claims were amended to recite the phrase "with the proviso that R¹ is not a heterocyclic base," in the amendment filed 1/05/2007.

As support for this amendment, Applicants stated the following:

Support for the amendment to claims 1 and 9 that recites, "with the proviso that R¹ is not a heterocyclic base" is ... The remainder of the amendments to the claims are made to correct grammatical errors and conform the claims to US practice. No new matter is added to the claims by these amendments. Accordingly, entry of the amendments to the claims is respectfully requested.

As per MPEP § 2173.05(i): "[A]ny negative limitation or exclusionary proviso must have basis in the original disclosure. If alternative elements are positively recited in the specification, they may be explicitly excluded in the claims. See In re Johnson, 558 F.2d 1008, 1019, 194 USPQ 187, 196 (CCPA 1977) ("[the] specification, having described the whole, necessarily described the part remaining."). See also Ex parte Grasselli, 231 USPQ 393 (Bd. App. 1983), aff 'd mem., 738 F.2d 453 (Fed. Cir. 1984). The mere absence of a positive recitation is not basis for an exclusion. Any claim containing a negative limitation which does not have basis in the original disclosure should be rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement." In the instant case, Applicants do not point out where support for the negative proviso language can be found in the specification as filed.

See MPEP §714.02 and § 2163.06 ("Applicant should * * * specifically point out the support for any amendments made to the disclosure."); and MPEP § 2163.04 ("If applicant amends the claims and points out where and/or how the originally filed disclosure supports the amendment(s), and the examiner finds that the disclosure does not reasonably convey that the inventor had possession of the subject matter of the

Art Unit: 1633

amendment at the time of the filing of the application, the examiner has the initial burden of presenting evidence or reasoning to explain why persons skilled in the art would not recognize in the disclosure a description of the invention defined by the claims.").

Applicant is required to cancel the new matter in the reply to this Office Action.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 7. Claims 9-20, and 24-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 8. Claim 9, and all those claims dependent therefrom, claims 10-20, and 24-31, were amended to recite the phrase: "with the proviso that R¹ is not a heterocyclic base." There is insufficient antecedent basis for this phrase in the instant claims since there is no R¹ moiety in the formula recited in claim 9.
- 9. Claim 18, lines 2-3, recites the phrase "wherein the fluorescent label or the second fluorescent label.." There is insufficient antecedent basis for this phrase in the instant claim since the claim was amended to remove dependency on claim 17.

Response to Amendment

10. The amendment to the claims filed on 1/05/2007 does not comply with the requirements of 37 CFR 1.121(c) because Applicant's amendment to claim 28 does not recite a proper status identifier, and comprises the deletion of text without the

Application/Control Number: 10/729,570

Art Unit: 1633

appropriate markings to highlight the amendment. Amendments to the claims filed on or after July 30, 2003 must comply with 37 CFR 1.121(c) which states:

Page 5

- (c) Claims. Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).
- (2) When claim text with markings is required. All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as "withdrawn—currently amended."
- (3) When claim text in clean version is required. The text of all pending claims not being currently amended shall be presented in the claim listing in clean version, i.e., without any markings in the presentation of text. The presentation of a clean version of any claim having the status of "original," "withdrawn" or "previously presented" will constitute an assertion that it has not been changed relative to the immediate prior version, except to omit markings that may have been present in the immediate prior version of the claims of the status of "withdrawn" or "previously presented." Any claim added by amendment must be indicated with the status of "new" and presented in clean version, i.e., without any underlining.

The previous version of claim 28, in the original claim set filed 12/05/2003, recited the following:

28. The method according to claim 27, wherein the oligomeric compound is an oligomeric compound according to any of the claims 15 to 20.

Currently amended claim 28 recites:

28. (Previously Amended) The method according to claim 27, wherein the oligomeric compound is an oligomeric compound.

Appropriate correction is required.

Art Unit: 1633

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
